During the Debate.

Washington, March 31.—The last two treaties of the group of seven negotiated by the arms conference were ratified by the senate.

In the final ratification roll call, an affirmative expression of senate opinion was all but unanimous. Not a single vote was cast against the eastern treaty, drawn to guarantee only one dissenting voice in the constitutional advice and was given to the pact for the ratification of the Chinese tariff. The respective, were 66 to 0 and 66 to 0.

The tariff treaty several sharp exchanges took place, with Senator Wagner, senior Democrat of the tariff committee, and Senator Capper, leading in criticism of participation in the fixing of customs schedules. Senator Capper was the only negative vote in the ratification roll call and Senator Capper left the chamber and did not return.

So of the treaty Senator Wagner, the Democratic leader, said the powers already were given to the treaty stipulating Chinese schedules and now were given to amend the tariff as practicable.

Suspension of Work in the
Ohio Coal Mines.

Washington, March 31.—While stating that a general strike in unionized bituminous coal mines is certain to begin Saturday, Secretary of Labor Davis declared in a statement that the situation leaves "no excuse for advance in coal prices," and no prospect of a coal shortage for the public.

Reviewing the government's efforts during the last two months to achieve a settlement in advance, he expressed "keen disappointment at the failure of certain operators to fulfill the terms of their obligation" to confer with miners for the making of new wage agreements which might have prevented suspension of work.

"All the government's efforts in the matter of mediation, conciliation and compromise," he said, "have failed to save the country from the national strike test of economic strength between employer and employee in the coal industry. *** In this effort, the president and myself have had neither legal right nor personal desire to dictate any program. Our one desire has been to induce the operators and miners to discharge the obligation they assumed themselves, to confer again for the shaping of a new agreement."

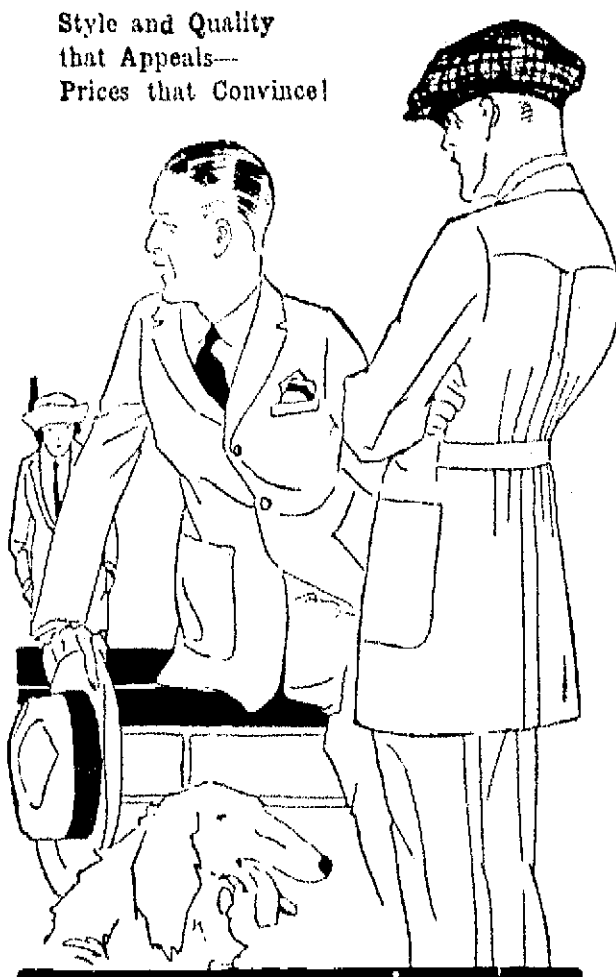

The miners, the secretary said, had always been willing to confer through their union representatives, but the operators, although for different assigned reasons in several localities had "turned their backs on a chance to lay bare, not only to the miners, but to the public, at least their reasons for declining a new wage agreement."

Miami, Fla., March 31.—Establishment of United States guards at West Indian ports and aboard Indian boats, these ports will be miners touching to Prohibition Commissioner Hayes by Colonel L. G. Nutt and a party of dry agents who are in the Bahamas investigating the liquor traffic. This is necessary to stop the steady flow of booze from the Indies to America, Colonel Nutt believes.

Cincinnati, March 31.—The grand jury indicted the Cincinnati Purchasing company as a corporation on the charge of violating the anti-trust law, of trade and conspiracy to fix the price of cement in this city.

American Business Abroad Is
Dropping.

Washington, March 31.—The rising tide of European goods on American shores is shown in monthly trade figures for February, issued by the department of commerce. The figures also set forth the lessening of American exports to Europe.

Imports from Europe last month were valued at \$71,494,521, as against \$68,112,462 in January and \$21,520,945 in February a year ago. Exports

to Europe last month amounted to \$125,355,149, as compared with \$148,950,246 in January and \$238,810,420 in February, 1921.

Trade with South America remained almost stationary during February as compared with January.

Notably among the figures as to countries were those relating to Germany, from which country the United States imported goods valued at \$8,991,154 last month, almost double the value of German goods which entered the country in February, 1921, when the German mark had a higher value.

Would Revise Bible.
Chicago, March 31.—Modern civilization needs a new Bible, edited

along "newspaper lines," Dr. J. M. Vance of Wooster college, Wooster, O., declared before the national convention of the Religious Education association here. The new book, according to Dr. Vance, should carry headlines, subheads, editorials and news bulletins. It should contain the same Old and New Testaments, he said, but should be "put up in a style to meet the needs of the twentieth century."

ILLINOIS MEN TO GO ON STRIKE

Joint Conference of Workers and Owners Fails.

FEW OPERATORS WILL BE ABLE TO RUN MINES

After April 1, Washington Observers Declare—Stocks of Coal Sufficient for Weeks.

Chicago, March 29.—Illinois coal miners will go on strike Saturday with other groups constituting the United Mine Workers of America. A joint conference of operators and miners held here today adjourned without having reached an agreement.

No further meetings will be held before the time set for the walkout, it was announced.

A resolution was adopted, however, providing for a further conference of coal interests upon call, either of Frank Farrington, president of the Illinois miners, or one of the three presidents of Illinois operators' associations.

Ready To Walk Out.—Three hundred thousand coal miners would have been out of work in the United States on April 1 even if a strike had not been called by the United Mine Workers. It was asserted today by officials who are in touch with the situation in the Illinois coal fields.

"Few operators would have been able to operate for more than two days a week after April 1," officials said.

"The stocks of coal on hand are sufficient for many weeks to come, so the administration is content to see the strike fought out to a finish."

Last Attempt.—New York, March 29.—In a last attempt to adjust their differences before the strike order goes into effect Friday at midnight, representatives of the anthracite union coal miners and operators were to meet in conference again at the Union League club this afternoon.

Before the meeting convened, it was generally agreed on both sides that nothing could be done to avert the proposed walkout. The miners' officials are demanding the acceptance by the operators of each of the nineteen demands of the United Mine Workers to halt the threatened tie-up.

Nearly Million Out.—London, March 29.—In addition to the 250,000 men already idle, 600,000 workers of the engineering and allied trades were locked out today. The lockout notices were posted by the Federation of engineering employers. Forty-seven unions are affected.

Many of the great shipyards on the Tyne and the Clyde were idle today because thousands of workers quit rather than accept reduced wages.

To Pass on Union Case.—Toledo, March 29.—Fred Kruse, special master in chancery, today began an investigation into the financial condition of the Brotherhood of Maintenance of Way Railroad Shop Laborers under direction of Judge John M. Kilbitt of the United States district court who held the objections of the union to the suit by Union brothers, restraining union officials from withdrawing funds in banks were not well founded.

When the masters reports is made, Judge Kilbitt will finally pass upon the application for a receiver to wind up the union's affairs.

To Adopt 1917 Scale.—Charleston, W. Va., March 29.—Adoption of a wage scale approximately the same as the 1917 scale, was announced at the conclusion here this afternoon of the meeting of the Kanawha Coal Operators' association.

The scale is to go into effect April 1, with inauguration of "open shop" policy, decided on several weeks ago. The new wage scale will be posted at all mines immediately, it was announced.

To Protect Property.—Charleston, W. Va., March 29.—The local union of the United Mine Workers, at Putney, Kanawha county, will protect coal company property in case of outbreaks, incident to the April 1 strike.

A resolution to this effect was adopted last night. The miners resolved to pursue a law abiding course in case of a strike. This is the first time local union of miners has made a definite stand of this character.

Operators in session here scheduled to make public their non union scale for the Kanawha fields late this afternoon. The scale is expected to approximate the 1917 scale. It will be offered to the miners for their consideration.

Call to Non-Union Men.—Pittsburgh, Pa., March 29.—A call to all non-union miners in the Pittsburgh district to join hands with the union miners in the strike, scheduled to begin April 1 was this afternoon sent out from the headquarters of District No. 8, United Mine Workers here.

If the non-union men walk out with the union men, the great western Pennsylvania field would be

BORAH SPEAKS FOR NAVAL PACT

Declares It Is the Beginning of World Peace.

SAYS AMERICA SHOULD SHOW GOOD EXAMPLE

To Other Nations by Leading in Disarmament—Quotes Talk of Secretary Weeks.

Washington, March 29.—Senator Borah quoted Secretary Weeks as stating that it was "vitally necessary" to protect the Panama canal from attack, during the debate on the naval limitations treaty this afternoon.

"There are only two nations which might successfully attack the Panama canal," Borah said.

"Whether the four-power Pacific treaty is likely to prevent such an attack is, of course, a matter of opinion, but it seems to me that the best way to prevent such an attack is for the United States to lead the way toward real world disarmament."

"If we regard the naval limitations treaty as a mere beginning in the direction of disarmament we can not praise it too much, but it seems to me that it would be extremely unfortunate if it were to be regarded as all that can be accomplished to limit armament, for it really amounts to very little toward ridding the world of the great armaments under which it is bending."

"Much has been said about the author of the armament conference. The real author of the disarmament movement was public opinion and a sustained public opinion can do much to bring about further disarmament."

Borah stressed the fact that the treaty leaves submarine "untouched, uncontrolled and unlimited."

"Let us hope that the treaty will not be generally accepted as all that can be done in the next ten years in the matter of disarmament," Borah said.

Represents Big Saving.—The treaty represents a saving which has been variously estimated at from \$50,000,000 to \$150,000,000 and \$200,000,000. The crushing burden continued armament is imposing upon the taxpayers can certainly be further relieved."

Senator Walsh, Democrat of Montana, referred to what the league of nations was doing toward bringing about world disarmament. He said that the Republican side "must feel twinges of regret when it views the successes the league of nations is constantly meeting with."

"I, for one, entertain no twinges of regret for my stand against the league," Borah responded.

"But if the league can accomplish anything towards the rehabilitation of Europe, if it can do anything to bring about a 'federalized' Europe, I shall be the first to rejoice, for I agree that until Europe is 'federalized' and put on her feet that no friend of America would expect America to go into such an economic and political chaos as now prevails in Europe."

Proportionate Rates.—Washington, March 29.—The interstate commerce commission authorized various railroads to introduce proportionate freight rates representing reductions from Chicago and related points to south Atlantic and Gulf ports on freight destined to the Pacific coast by steamship lines operating through the Panama canal.

The proposal is for the purpose of putting the southern ports on a parity with New York.

Entertain Company.—A company of friends were entertained Tuesday evening at the home of Mr. and Mrs. Carlos McLaney, of north Prospect street. The evening was passed with cards and dancing, and the hostess served refreshments.

Those present were Mr. and Mrs. W. E. Thomas, Mr. and Mrs. W. R. Davis, Mr. and Mrs. Ora DeWeese, Mr. and Mrs. Ralph Carter, Miss Ruth Temple, Mr. Thomas Parmenter and Mr. Charles Chaplin.

Miss Pauline Mayo.—Miss Pauline Mayo, of Omaha, reader and entertainer, will give a program Thursday and Friday evening of this week, beginning at 8 o'clock at the Y. M. C. A. building. Point Pleasant, W. Va., March 29.—A wedding was halted here today when the bride-to-be remembered she didn't have a divorce from her first husband.

Frederick E. Jeffries, thirty-two, got a license to marry a girl named her name as Nellie M. Dots, twenty-one. An hour later he returned to the license to the county clerk and wanted his money back.

Jeffries said the minister and witnesses were present and he had to slip the wedding ring on his wife-to-be's finger when she remembered that she had a divorce from her first husband. The ceremony was declared off.

STRIKER IS SHOT BY GUARDSMAN

Special Officer Under Arrest in Maryland City.

RAILROAD OFFICIALS DEMAND STATE TROOPS

Strike Is in Protest Against Letting Out to Contractors Repair Work of Road.

Baltimore, Md., March 29.—It was reported here today that officials of the Western Maryland railroad were considering asking for state troops to prevent further trouble at their shops at Hagerstown, following an outbreak of rioting there late last night in which one of the striking shop employees was shot by a special guard.

The wounded striker is in a hospital suffering from a bullet wound in the leg. The special officer who fired the shot is under arrest. He claims his home is in Marion, Pennsylvania, but refused to divulge his name.

Fires Into Crowd.—The trouble started when, it is said, a group of young strike sympathizers alone a crowd of strike breakers who were all waiting to move a disabled locomotive into a repair shop. It is said the special guard drew a revolver and fired five shots into the crowd one of the bullets hitting Vernon Schildmecht, a striking shop employee, in the leg.

The strike of shopmen and maintenance of way employees on the Western Maryland railway began last Saturday as a protest against placing the branches of the service under the contract system with a simultaneous reduction in wages.

Vote To Aid Poor.—It was voted to aid the poor members of other churches at the meeting of the members of Montgomery Grace Tuesday evening in the school house at Decitt. There was a good attendance and plans were made to meet again April 11.

FROM OUR READERS

Can Arouse Public Sentiment.—Editor Star:—On the editorial page of last Saturday's Star you suggest that I evidently wish it to be understood that the Ministerial association is powerful enough to "force law enforcement" if the authorities should fail or refuse to do so. This is hardly correct. The Ministerial association is composed of citizens whose rights and responsibilities are not abridged by reason of their being the moral and spiritual leaders of the community. As citizens, the members of the Ministerial association stand pledged to institute legal proceedings, if necessary, against violators of law.

As ministers of the Gospel, we shall doubtless regard it as our duty to arouse and solidify public sentiment against every form of immorality and lawlessness, so that our officials will not hesitate to enforce the laws.

It is very probable that a recent carnival, featured as it was with gambling and lottery devices, failed to achieve the measure of financial success hoped for, because of the strong feeling of disapproval and condemnation which was aroused against it by the Ministerial association.

President Harding in a recent public address said, "Whatever breeds disrespect for the law of the land in any particular department of our community relations, is a force tending to the general breakdown of the social organization."

If the Ministerial association can so interpret and express the Christian consciousness of the community as to cause individuals and organizations sponsoring practices that breed disrespect for law, to be known and appraised as forces destructive to social well-being, our efforts will be well worth while.

There is just now a rising tide of indignant protest in our city against commercialized vice. The practice of permitting houses of prostitution to traffic in vice without police interference is becoming so abhorrent to the vast majority of our citizens that the authorities have been compelled to take cognizance of it. Unquestionably, a recent "raid" conducted by the police department upon certain disreputable houses was a direct result of the pressure of an aroused public sentiment. And who, may I ask, can be expected to lead the lead in arousing public sentiment against menacing evils if not the Christian ministers?

No, we do not claim to be powerful enough to force the enforcement of law. But this we can do—we can call upon the decent, God-fearing men and women of Marion to be earnest and outspoken in their denunciation of vice, immorality and lawlessness of every description. Thus we can cause the sponsors and promoters of these destructive forces to feel the stigma of deep disgrace resting upon them. We can also summon our city officials to strict accountability in the matter of law enforcement.

In some such way, I venture to believe, a Christian minister can render a service that will be quite as valued as prayer or sacrament or sermons.

What every mother should know—

THE one subject nearest a mother's heart is the welfare of her children. It is during childhood that their health is most important.

Weak, under-nourished children seldom develop into vigorous, healthy men and women. Malnutrition produces anemic constitutions, liable to many diseases. Food is the most important factor in the development of children.

An interesting fact to every mother in America is this: Grape-Nuts, served with milk or cream, is a complete food. Grape-Nuts is

the wholesome, delicious cereal made of whole wheat flour and malted barley. It is rich in nutritive mineral salts that supply strength and nourishment to the growing body tissues. Your children will thrive on it.

Begin today to make Grape-Nuts, with milk or cream, the regular breakfast dish—not only for the children, but for you and the others as well.

Your grocer sells Grape-Nuts, the same delicious Grape-Nuts that is served in the leading hotels and restaurants of America.

The cost of Grape-Nuts is little—because of the large number of dishes you can serve from one package.

DECLARES FARM BLOC
NOT MENACE TO COUNTRY

Congressman Anderson Says
Charges Are Ridiculous.

SPEAKS AT LUNCHEON OF
CHAMBER OF COMMERCE

Says Recent Crisis Shows Inde-
pendence of Agriculture
and Transportation.

Denouncing the charge that the
"farm bloc" is a menace to the
country as ridiculous, Congressman
Sydney Anderson, of the First dis-
trict of Minnesota, addressed the
weekly noon luncheon of the cham-
ber of commerce at the Y. M. C. A.
dinner-room today. Congressman
Anderson declared that the organ-
ization of the farm bloc is the re-
sult of an emergency and that when
the emergency passes the "farm
bloc" will pass from existence. John
H. Clark and R. T. Lewis spoke on
Why I belong to the Chamber of
Commerce. The next meeting of
the chamber of commerce will be
Tuesday, April 4, at the Trinity
Baptist church when the meeting
will be devoted to the centennial.
The recent crisis demonstrated
clearly the interdependence of agri-
culture, industry and transportation,"
Mr. Anderson said. "Before I
left Washington last Saturday, I
talked with President Harding and
he told me to give you his kindest
regards. He is possessed of
qualities of human sympathy and
wise statesmanship that are char-
acteristic of the great man that he is.
I was pleased to note the consumma-
tion of the activities of the presi-
dent in the limitation of armament,
the reduction of the burdens of tax-
ation and the signing of the treaties
guaranteeing peace.

Picture Conditions.

"I am not a dirt farmer, but I

should like to give you a picture of
the economic conditions which led
up to the price debacle through
which we have just passed. In 1911,
there was a depression in business
after the war, business was
stimulated by the buying of foreign
goods who were more interested in
the date of delivery than the price.
Prices were later stimulated by the
competitive buying of the different
departments of our own government.
The farmers in price of the com-
modity as which were not controlled
either directly or indirectly, by the
government were the least.

"There was a slight hesitation
when peace seemed assured in 1918.
In March 1919 there began a period
of spending, extravagance and infla-
tion such as was never known in the
history of this country and possibly
in the history of the world. The
restrictions on production of non-
essentials were gradually removed
and the country saw another in-
crease in price. There was an enor-
mous use of credit during this time.

"Farm mortgages doubled during
this period and mortgages on prop-
erty other than real estate doubled
also. We thought that the foreign
countries would use our agricultural
products but we failed to take into
consideration one thing. The ability
of nations, as well as individual,
to buy is not governed by their de-
sire, their necessity of their wishes,
but upon their ability to pay, either
with credit, later with goods, or
with cash.

"At the end of the war, Europe
had a credit of \$1,500,000,000 in
this country. When this became ex-
hausted, having ceased. Banks
called in their loans, orders which
had piled up during the war were
cancelled and a perpendicular de-
cline in prices was noted.

Farmer First Sufferer.

"The farmer was the first sufferer
in that period as the prices of farm
products are determined in the
world market and depend upon sur-
plus. The price of agricultural
products was broken by the loss of
the supplies of farm products
which had been dammed up in Aus-
tralia and in other countries because
of a lack of shipping. The depres-
sion was world-wide. It was noted
first in Japan when the silk mar-
ket broke, then in Java, Europe and
finally in the United States and
Canada.

"There was a widening in the
gap between the price that farmers
receive for their products and what
they pay for the commodities which
they must use. The earning power
of the average farmer is about one-
fourth that of the earnings of the
average bank employee, industrial
employee or railroad man. Farmers
planted their crops at the highest
prices and sold them at prices so
low that they were not even able to
make out of them the actual cost.

To Meet Emergency.

"It is characteristic of America
that whenever a crisis arises, there
is always some one to take the re-
sponsibility and carry us through.
The 'farm bloc' was formed to meet
this emergency. Twenty members of
the senate and twenty-five members
of the house of representatives got
together to see what could be done.
I have been unable to obtain a list
of names of this sinister group of
men. The meetings were held with-
out secrecy, being open to the press
and to the public.

"The people have failed to take
into consideration that what helps
one group, helps all cases. The
'farm bloc' is not a menace to the
country, because to pass a law more

than twice that number of senators
would be required to vote for it and
nearly ten times as many representa-
tives."

GIVE OUT RESULT OF
TOWNSHIP SURVEY

Sixty-Two Per Cent. in Tully
Affiliate with Church

Sixty-two per cent of the res-
idents of Tully township are affili-
ated with some church according to a
recent survey made by the Christian
service team of Olney Wesleyan uni-
versity. The report states, however,
that "the fact that about fifty per
cent of membership in a church
where the attendance is claimed to be
nine or ten to an occasional service
and about twenty in a church which
had no service two years makes
this percentage somewhat too high."

The township has a population of
485, according to the report. Of
this number there are 298 above
fourteen years of age. 181 are mem-
bers of the Martel M. E. church,
146 are members of other churches
in and around the township, 151
above fourteen years of age are not
affiliated with any church. 155 are
members of the Martel M. E. Sun-
day-school, 125 are in other Sunday-
schools, 195 are not in any Sunday-
school and 175 are in the Martel M.
Epworth league.

There are ninety-five families in
the township who claim to attend
school activities, which comprise
the social life of the community and
sixty families have but little inter-
est in school activities, the survey
shows.

A church community organization
has been formed with a team of three
in each district to promote the work
of the church and the work of gen-
eral community welfare. The cap-
tains of the teams are Bart Downs,
Thomas Wiedemeyer, Charles Hoff-
stetter, James Myers and Earl
Douce. A monthly church night pro-
gram is to be instituted by the teams.

CHURCH SOCIETY

Services at Calvary.
A good attendance was present at the revival services at Calvary Evangelical church Tuesday evening. Rev. C. L. Allen spoke on "Bible Conviction" taking his text from Acts 2:37, "Now when they heard this, they were pricked in their hearts, and said unto Peter and to the rest of the apostles, Men and brethren, what shall we do?"

"A heart that is convicted of sin does not feel very pleasant while the conviction is on." Rev. Mr. Allen said. "While being convicted of sin is not a pleasant feeling yet we know it is the only hope of the present generation. It is possible for us to know that there is nothing between us and God. How desperately scared some people's consciences get these days. Nothing seems to stir them. Lots of people have let the noise of the world drown out the voice of the conscience."

Class prayer meetings are being held each evening at 7 o'clock followed by the regular service at 7:30 o'clock.

Catherine Wood Chapter.
The Catherine Wood chapter of the Westminster guild of the First Presbyterian church met last evening with Miss Eloise Tschannen, of South Prospect street.

He returned to his home this morning. During the services there were eight conversions. The official board of the church will meet this evening instead of Thursday evening.

Revival at Wesley Church.
Miss Edna Banning preached from Isaiah 55:1 at Wesley M. E. church Tuesday evening. "Water is used as a symbol of salvation because it is so abundant that it properly distributed there is enough for every one on the whole earth and then it is the only thing that will satisfy the thirst of man," Miss Banning said. "Salvation is the only thing that will satisfy the longings of the soul. It is also symbolized by milk, which means nourishment and wine that symbolizes strength. But salvation is abundant and free. Whosoever will may come and take freely of the water of life. There is an abundance for all. It can not be bought, but you may have it if you will." Several went forward. Miss Banning preached at 2 o'clock this afternoon and will preach at 7:30 o'clock tonight. This evening she will preach on "The Blood Redemption." KILLIFER'S CUBS ARE
ACQUIRING SPEEDPleasing Prospect Indicated by
Work on Coast.NEW SPIRIT DEVELOPS
AMONG TEAM MEMBERSAlready Fighting Umpires, Which
Is Indication That They Will
Not Be Walked on.

Chicago, March 29.—About the most pleasing prospect that stretches ahead of Killifer's Cubs in the 1933 baseball season are some lovely summer days and a schedule of 135 games.

No pennant flaps at the finish of the long grind that begins before October.

The tops of the Cubs is not the confusion but a niche higher in the per centage column than they achieved last year. Their deterrent is not to win the flag, they think, but to make the going rough for a few clubs who have champion ship aspirations and to keep a firm root on the necks of the Reds and Phillies, who already have made threats about what they intend to do to the Braves.

Acquiring Rep
Every scrap of news that has trickled back from Catalina Island where the Cubs performed their vernal training stunts indicates that Killifer still have just one thing to worry about: that his outfit did not have last year. That is "pep".

If there has been any great excess of playing talent among the Cubs it has not been particularly noticeable in early season performances. A new spirit, however, has been noticeable and the lackadaisical manner that marked the Braves' endeavors last year seems to have faded. The young men who toil under Killifer's direction already are fighting the umpires, which is an indication that they will not be walked on during the pennant gambol without seeking reprisals.

At Last
Spring Is Here

Just a few more days like last Saturday and we will all agree that Spring is here. Along with this kind of weather what do we most naturally expect? People are buying new Automobiles; the older boys are buying Bicycles; the younger boys and girls are buying new Roller Skates; the still younger kiddies are getting Velocipedes and Tricycles. Now what pleasures are you going to give to the baby, surely it needs the out-of-door exercise as well as those that are older.

ULSTER PARLEY IS FRUITLESS

Continued from Page One.

ty Fermanagh, kidnapping fifteen
policemen. The Great Northern rail-
way is cancelling all night trains be-
cause of the increasing number of
attacks.

One member of the Ulster con-
stantulary was wounded in a clash
with raiders on the Armagh border.

Churchill Optimistic.
London, March 29.—Discussions
in the first two sessions of the Irish
peace parley were understood this
evening to have been completely
satisfactory.

The parley, however, has not yet
reached a point where the conference
can report progress towards a set-
tlement of the Ulster troubles.

When the second session broke
up, Colonial Secretary Winston
Churchill appeared to be in an opti-
mistic frame of mind. Sir James
Craig, the premier of Ulster, and
Michael Collins, of the Irish Free
State government, were both silent.
As the parley got under way, re-
ports of fresh violence were received
from Ulster.

FILM CENSORS ARE APPOINTED

Continued from Page One.

tant of the state's motion picture
censorship laws and announcement
that violators will be prosecuted, are
contained in a letter mailed today by
Attorney General Price to the heads

of the fifty-one movie film exchanges
in Ohio.

"Assuming that you are at all
times anxious to comply with the
censorship laws, I am writing to call
your attention to some charges that
have been made rather generally to
the effect that orders of the state
censor board, particularly concern-
ing eliminations from various films,
have not been complied with," the
attorney wrote.

"I do not at this moment have in
mind any specific charges, but I am
writing you this letter to solicit in
the first place your full cooperation
in the enforcement of the law to the
end that the citizens of the state of
Ohio may have the protection pro-
vided by the state laws against the
showing of films unlawfully," con-
cluded Attorney General Price.

"In the second place, you will
please take notice that the duly au-
thorized officials will be instructed
to exercise diligent care to the end
that prosecutions may swiftly fol-
low any violations of the law."

CHARGE ATTEMPT AT SHORT-CHANGE GAME

Cleveland Youth Arrested in
South Main Street Store.

GENERAL STORE AT
HEPBURN BURGLARIZED

Number of Articles Taken from
Berry's Store, Including
Rings and Watches.

Edward J. Smith, giving his age
as twenty-one and his residence as
Cleveland, was arrested Tuesday
afternoon at the store of Mike Elton
Hepburn, on South Main street.
Smith, who is a dispenser of metal
polish is alleged to have attempted
to work a short-change game on Sab-
back and when the latter refused to
be a victim an argument resulted
and two witnesses of the transaction
compelled Smith to remain until an
officer was secured. He was taken
before the mayor and entered a plea
of not guilty to disorderly conduct.
Following the testimony of the wit-
nesses he was found guilty and fined
five dollars. He expressed his
willingness to go to jail, but this
morning came to the conclusion that
prison life was not worth the
amount.

Burglarize Hepburn Store.
The local police received a call
from Hepburn this morning stating
that Berry's general store at that
place was entered Tuesday night and
a number of knives, rings, watches,
chains, razors and other articles were
stolen.

Shoulder Dislocated.
John Chary, of Jersey City, was a
sleeper at the city prison Tuesday
night enroute from St. Louis.
He was turned out early this morn-
ing and in attempting to board a
freight train to proceed on his
journey he dislocated his left shoulder.
He returned to the station where he
secured surgical attention and then
left to continue the journey with the
arm in a bandage.

THE SICK
Mrs. Farley Sharp and daughter,
Inez, of Brush Ridge, are ill of the
flu.

Cloyd Lindsay, Elmer Bondley, E.
C. King and Charles Bowen, city
carriers at the Marion postoffice, are
off duty on account of illness.

Mrs. E. R. Johnson, of No. 238
Hume avenue, who underwent an
operation Monday at the Jane (Caso)
hospital, Delaware, is reported to
be recovering nicely.

Differences of opinion, however,
do not change the facts in the case.

Preceding the work dinner was served by the women of Lydia Chapter, No. 53, Order of Eastern Star, and as the men marched into the banquet room the Masonic orchestra of sixteen pieces, which played throughout the dinner hour, played the Kadgar Grotto march composed by Bertram Myers, leader of the orchestra.

The attendance was very large and after dinner the order of temple was conferred upon a class of candidates and the annual inspection was made. Mr. Voorhees complimented the officers highly upon the efficiency of their work.

The next meeting will be held April 20.

THE NATIONAL WEEKLY**

Vol. 47 No. 1
January 1, 1932

To Lift This Country Up and On

Rome fell when the people of her empire took to building in cities, foreigners may well profit by Rome's example. "A nation like the United States may well profit by Rome's example. A nation like a man can do of poor circulation when the blood is congested in the heart." Only within the past few years has come the picture those of the danger; only lately have there come into the picture those thousands and millions of slim, strong wires along which speeds of energy capable of producing more power, light, and heat than any other known force.

That energy, given its chance to work throughout the length of the land, is going to remove all danger of excessive urbanization. Day after day, given its chance, it makes the small town a better town in which to live; it brings the farm closer to the small town, putting the farmer in instant touch with the merchant who buys his product, the doctor who tends his ill, and the neighbor whose problems are as his own.

More miles of good roads, more motor-propelled vehicles, extension of railroad lines—and electricity, with its multitude of present uses and its infinite future possibilities—these will guard us forever against the perils of city congestion.

Let's become more than a nation of button pushers; we have it in our hands to become a nation that really knows something about the most tremendous force in the world.

Excerpt from Editorial in
Collier's Weekly
January 14, 1932

Communities having that grade of electric light and power service which is possible only when the company receives fair treatment and is "given a chance" will be found by comparison to be the leading communities in the country, industrially, commercially and socially.

Also it will be found that many of the 1,600,000 present owners of electric light and power company securities are citizens of these progressive communities. Not only have they invested their savings wisely and well, but they are helping their community to grow, and its neighboring territory to develop.

Financial Wizards

Spring up over night, seemingly. Hundreds give them unfounded confidence and their savings. Instead of multiplying these savings, as promised, they are dissipated. Newspapers herald the loss of millions. Folks forget that safety and conservation troop together, and that money in the bank at 4% interest is a thousand fold better than money in the hands of so-called wizards, who "guarantee" fabulous dividends, never realized, and never return the principal.

40 Times Their Weight in Four Months

Why Baby Chicks Must Be Fed Carefully

Chicks have powerful digestive organs for quickly converting large quantities of food into body tissue, which results in amazing growth. But these organs are peculiarly susceptible to the effects of improper feeding—the cause of great losses to poultrymen every year.

While opinions of authorities differ as to the ingredients for a good chick ration, they agree very closely as to the chemical analysis required. You will find that Vitality Chick Mash and Vitality Chick Scratch contain the elements which most poultry authorities recommend, and we guarantee that only pure, wholesome ingredients are used.

Make sure of strong, healthy chickens this year by feeding Vitality Poultry Feeds. Ask us for "Chick Insurance".

PAULINE MAYO GIVES READINGS AT Y. M. C. A.

Will Give Miscellaneous Program
Tonight.

The story of "Pollyanna," Eleanor
H. Porter's "glad girl" was splendidly
interpreted by Miss Pauline May-
o, Mayo, reader and entertainer,
Thursday evening in the Y. M. C. A.
auditorium. The story was cleverly
told in five acts by Miss Mayo, who
portrayed her characters in a most
winning manner. Following the
story Miss Mayo entertained with a
humorous impersonation of a two-
day-old baby.

The entertainment this evening
will be a miscellaneous program and
will begin at 8 o'clock. The pro-
grams are given under the auspices
of the Epworth League and Young
Women's society of Epworth M. E.
church and the money realized on
the two performances will be used
by the societies for mission work.

DECIDE TO POSTPONE "CLEAN-UP" WEEK

On Account of Effect of Wet
Weather on Roads.

After a meeting last night of the
"clean-up" week committee, at
which Mayor George W. Neely, City
Engineer T. S. Catthers and Safety
Director E. A. Schultz were present,
it was decided to postpone "Clean-
up" week for two weeks, on account
of the effect of the recent wet weath-
er on the roads. It was pointed out
that it would be impossible for city
trucks to get through certain streets
and that they could not get to the
quarry to dump the refuse. In the
intervening time, Mayor Neely sug-
gested that all garbage and ashes
be hauled as the city will collect
only tin cans and rubbish.

THREE MEN HOLD UP FRANK LEE IN STORE

Relieve Proprietor of Confection-
ery of \$15.

WILLIAM ZAHN HOME
ENTERED BY BURGLARS

Window in Pantry Is Forced.
Take Approximately \$200
Cash and Checks.

Frank G. Lee, who conducts a con-
fectionery store at No. 384 West Cen-
ter street, reported to the police
about 9 o'clock Thursday evening
that he was held up in the store by
three men and robbed of \$15. The
police were on the scene a few min-
utes after it was reported and work-
ed on the case during the night, but
failed to find any persons answering
the description given by Lee. He
stated that the men entered the
store and one asked to purchase
some candy. As he started to wait
on him the fellow covered him with
a revolver and demanded the money.
At the same time another went
around the counter and took \$15
from the drawer.

Burglars' Zahn Home.

Burglars entered the home of Mr.
and Mrs. William Zahn, No. 191
east Farming street, last Wednes-
day evening between the hours of
7 o'clock and 9:30 o'clock and stole
about \$200 in cash and checks.
Members of the family were up
town and did not discover the rob-
bery until late in the evening upon
their return home. The checks and
cash were in a billfold belonging to
Charles Rieser, of Upper Sandusky,
a brother of Mrs. Zahn, who, with
his family, had been visiting in
Marion for the day. The loss of
the checks and the cash was not dis-
covered until this morning, when
Mr. Rieser called from Upper San-
dusky and notified them that he had
not brought the billfold home with
him.

Entrance was gained by forcing
the window to the pantry. The bur-
glar carefully set bottles of milk
and butter which were on the win-
dow sill, on the ground outside. All
of the coconut covered cookies on
the table, as well as some other food
left from the evening meal were
taken. All of the blinds in the
house had been pulled down.

Assessed \$25 Fine.

Clarence Sipes was arrested at a
room of the Royal hotel, on north
Main street, at 3:30 o'clock this
morning and locked up on a statu-
tory charge. Sipes entered a plea of
guilty when arraigned before the
mayor and was fined \$25 and costs.
He was released by paying part of
the fine and arranging to pay the
balance.

Taken to Workhouse.

George Dardanelle, who was fined
\$25 and costs and sentenced to stay
days in the workhouse in the
mayor's court Thursday morning on
a charge of making an assault on
his wife, was taken to the work-
house this morning by Officer
Thatcher.
